The Finanssivalvonta (FIN FSA) is responsible for supervising Seligson & Co Fund Management Company Plc in relation to this Key Information Document.

This key information document has been prepared on 1 December 2023.

What is this product?

Type

The fund is a Finnish investment fund (UCITS) investing in equities of emerging markets.

Term

Investment in this fund has no maturity. Investors decide on the duration of their investment. The management company has the right, on their own initiative, to redeem the fund units in situations referred to in § 8 of the common rules of the funds managed by Seligson & Co Fund Management Company Plc.

Objectives

Change of the rules: Seligson & Co Emerging Markets Fund becomes LocalTapiola ESG Emerging Markets – investing in future directly in equities. More information seligson.fi.

The fund invests its assets mainly in units of mutual funds that invest in emerging markets. The target funds invest in emerging market stock markets, such as Asian, Latin American, Eastern European and African markets. The diversification of the fund's investments is very wide through the target funds. The most important factor influencing the fund's return is the performance of the emerging countries' stock markets. The objective of this fund is to provide investors with a total return that tracks the return of emerging countries' stock markets, taking into account the fund's own costs.

This fund is an actively managed equity fund. The fund does not have a goal of tracking any particular index. The portfolio manager does not conduct active assessments of future performance of various investment targets. In reporting, the fund's performance is compared with the MSCI Emerging Markets Index. The index is a return index.

It is possible to subscribe for (buy) and redeem (sell) fund units during all Finnish banking days. If the subscription fee has been received at the fund management company on a banking day before 4 p.m., the subscription will be confirmed at the value of the next banking day. If a redemption order is received at the fund management company before 4 p.m. on a banking day, the redemption will be confirmed at the value of the following banking day, provided that the fund has the cash available for redemption. If securities must be sold due to a redemption, the redemption is executed no later than the end of the

business day on which the sales are recorded in the fund's valuation calculation. This fund can be subscribed for and redeemed through Seligson & Co and LocalTapiola.

This is a distribution unit (unit type B). The amount of the annual distribution paid to distribution units (B) is determined by the annual meeting. More information on the fund's other types of units can be found in the prospectus and at the management company.

Risk of suffering losses with the investment decreases as the investment period becomes longer. The fund can lend out securities it owns to achieve additional returns. Lending involves counterparty risk, which is hedged by bonds or cash as collateral for lent-out securities.

Intended Retail Investor

This fund is suitable for an investor who seeks a total return typical of emerging equity markets over the recommended investment period and is willing to accept stock market risks, including the risk of losing some or all of the capital and return. In this class of units of the fund, a return compensation decided by the general meeting of the fund management company is paid annually. This fund is best suited as a component in a larger equity portfolio and can be used to diversify equity investments focused on Europe and/or the USA, for example. No previous investment experience is required from the investor.

The fund applies risk management principles approved by the management company's board of directors to identify and manage the fund's risks.

Further information about the fund (prospectus and rules in Finnish and Swedish; financial statements and half-year report in Finnish) and the latest value of the fund unit are freely available on the management company's website at seligson.fi or by requesting it at the management company. For those customers who have chosen LocalTapiola as their service channel, additional information is available at lahitapiola.fi. The fund's custodian organisation is OP Custody Ltd.

What are the risks and what could I get in return?

Risk Indicator

Lower Risk

Higher Risk

The risk indicator assumes that you keep the product for 7 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

The risk indicator considers the market risk associated with the performance of investment targets. The risk indicator category may vary over time. All investing involves risks; even in the lowest risk categories. General investment-related risks are described in more detail in the fund prospectus.

The following factors are not taken into account: market area risk and currency exchange rate risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 12 years. Markets could develop very differently in the future.

Recommended holding period: 7 years

Example Investment: EUR 10,000.

| Scenarios | | If you exit after 1 year | If you exit after 7 years |
|--------------|---|--------------------------|---------------------------|
| Minimum | There is no minimum guaranteed return. You could lose some or all of your investment. | | |
| Stress | What can an investor get back after expenses | 4,070 EUR | 2,760 EUR |
| | Average return each year | -59.26 % | -16.81 % |
| Unfavourable | What can an investor get back after expenses | 7,880 EUR | 8,520 EUR |
| | Average return each year | -21.17 % | -2.26 % |
| Moderate | What can an investor get back after expenses | 10,340 EUR | 13,610 EUR |
| | Average return each year | 3.44 % | 4.50 % |
| Favourable | What can an investor get back after expenses | 15,090 EUR | 17,210 EUR |
| | Average return each year | 50.91 % | 8.06 % |

The stress scenario shows what you might get back in extreme market circumstances. The unfavourable scenario occurred for an investment between June 2021 and December 2022. The moderate scenario occurred for an investment between November 2015 and November 2022. The favourable scenario occurred for an investment between February 2014 and February 2021.

What happens if Seligson & Co Fund Management Company Plc is unable to pay out?

The assets of the mutual funds are property of their respective investors. The assets are kept with an external custodian organisation (OP Custody Ltd). The duties of the custodian organisation include the preservation of the fund's assets and the supervising the operations of the funds. A mutual fund's assets are kept separate from the assets of other mutual funds, the management company, and the custodian organisation. The management company's finances are completely separate from the mutual fund's assets, and the fund's assets cannot be used to cover the liabilities of the management company or the custodian organisation. Seligson & Co Fund Management Company Plc's mutual funds are not protected by the investor compensation fund and are not covered by the deposit guarantee scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year, you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

| | If you exit after 1 year | If you exit after 7 years |
|------------------------|--------------------------|---------------------------|
| Total costs | 73 EUR | 712 EUR |
| Annual cost impact (*) | 0.7 % | 0.8 % each year |

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.3% before costs and 4.5% after costs.

Composition of costs

| One-off costs upon entry or exit | | If you exit after 1 year |
|---|--|--------------------------|
| Entry costs | The fund carries no participation costs. | 0 EUR |
| Exit costs | The trading fee for the fund when redeeming fund units is normally 0 %, but 0.50 % if the investment period is less than 180 days in duration. | 0 EUR |
| Ongoing costs [taken each year] | | |
| Management fees and other administrative or operating costs | 0.64 % per annum (in 2022). Includes, e.g., the management fee, deposit fee and depositary's fee, and banking charges. | 64 EUR |
| Transaction costs | 0.1 % of the value of the investment annually. Includes expenses incurred for the purchase and sale of the fund's investment instruments. This number includes actual and implied trading costs. This is an estimate based on previously incurred costs. Costs may vary from one year to the next. | 10 EUR |
| Incidental costs taken under specific conditions | | |
| Performance fees | The fund does not have a performance-based fee. | 0 EUR |

How long should I hold it and can I take money out early?

Recommended holding period: 7 years

This fund may not be suitable for investors who intend to sell their units in the fund within seven years. The developer's estimate is used to calculate the minimum recommended investment period. Among other things, such an estimate considers the fund's historical fluctuations in value in relation to the current situation, as well as other fund-specific characteristics. Investors may redeem their investments during any Finnish banking day. If the investment period is less than 180 days, the trading fee for the fund for redemption is 0.50 %. This key information document's section "What are the costs?" contains additional information. If the fund unit is sold before the recommended investment period, the risk of sustaining losses with the investment increases.

How can I complain?

An investor can file a complaint about this product, Seligson & Co Fund Management Company Plc or the activities of a person selling or advising on the product to the management company (info@seligson.fi, phone: +358 9 6817 8200, www.seligson.fi/sco/suomi/tietoa-palveluista/, Erottajankatu 1–3 00130 Helsinki, Finland). The complaint together with any claims must be submitted to the management company in writing and the management company shall notify its decision without undue delay.

Customers who have chosen LocalTapiola as their service channel should primarily contact LocalTapiola's savings and investment telephone service at +358 9 453 8500. The customer must immediately notify LocalTapiola of any defect in the service and any claim related to such defect. Any and all complaints must be submitted in writing.

An investor who is dissatisfied with the decision can file an appeal at FINE (Finnish insurance and financial advisory services) (Porkkalankatu 1, 00180 Helsinki, Finland, tel: +358 9 685 0120, www.fine.fi), which issues decisions of recommendatory nature in securities matters, and at the Finnish consumer disputes board (Hämeentie 3B, P.O. Box 306, FI-00531 Helsinki, Finland, kril@oikeus.fi, www.kuluttajariita.fi). The customer also has the right to have any dispute resolved by the district court of his/her place of residence in Finland.
