Call +358 9 6817 8200 for more information.

The Finanssivalvonta (FIN FSA) is responsible for supervising Seligson & Co Fund Management Company Plc in relation to this Key Information Document.

This key information document has been prepared on 10 March 2025.

## What is this product?

### Type

The fund is an ordinary money market fund in accordance with Regulation (EU) 2017/1131 of the European Parliament and of the Council. The fund invests in short money market investments and deposits.

### Term

Investments in the fund do not have a maturity date. Investors decide the length of their investment. The fund management company has the right, on its own initiative, to redeem the fund units in accordance with § 8 of the common rules of the funds managed by Seligson & Co Fund Management Company Plc.

### Objectives

Seligson & Co Money Market Fund is a money market fund seeking steady return with very low risk. The fund invests in short-term money market instruments and deposits. This fund's goal is to provide the investor with a total return in line with the short-maturity fixed income market. The most important factor influencing the fund's return is the performance of short-maturity money market instruments and deposits.

The fund aims at capital conservation and money market returns. A money market fund is not a guaranteed investment, and investments in the fund differ from deposits in that they are not covered by a deposit guarantee scheme. The capital invested in the fund may fluctuate. The fund does not rely on external support to guarantee its liquidity or to stabilise the value of the fund unit. The investor bears the risk of loss of capital. The fund is actively managed.

Fund units can be subscribed (bought) and redeemed (sold) on all Finnish banking days. If the subscription payment has been received at the fund management company on a banking day before 2.30 pm, the subscription will be confirmed at the value of the same banking day. If the redemption order has been received at the fund management company before 11 a.m. on a banking day, the redemption will be confirmed at the value of the same banking day, assuming the fund has the cash available for redemption. If securities need to be sold for the redemption, the redemption is executed no

later than the end of the banking day on which the sales are recorded in the fund's valuation calculation. This unit class of the fund can be subscribed to and redeemed via LocalTapiola and Seligson & Co.

The fund has both growth units (A) and income units (B). In accordance with the fund's investment policy, the returns on investment instruments (such as fixed income) are invested in growth units (A). For income units (B), an annual profit is paid, the amount of which is decided by the general meeting. This key information document has been prepared on the basis of the growth units and it also represents the income unit. Further information on other types of units and unit classes of the fund is available in the fund prospectus and at the fund management company.

The fund's fixed-income investments are short-term and the length of the holding period has little effect on the risk of sustaining losses from the investment while the current interest yield is positive.

### Intended Retail Investor

This fund is suitable for investors who seek to invest their cash in a diversified manner over the recommended holding period and minimise value fluctuation. The fund is also suitable as a short-term investment for cash reserves, such as cash management of companies or investment portfolio stabilisation. For the fund's income units a profit decided by the general meeting of the fund management company is paid. No previous investment experience is required from the investors.

The fund has risk management principles approved by the board of directors of the fund management company to identify and manage the fund's risks.

Further information on the fund, such as the prospectus, the rules, the annual and semi-annual reports (available in Finnish and Swedish as PDF-files) and the most recent value of the fund unit is available free of charge from the online service [seligson.fi](http://seligson.fi). If the investor uses a service channel other than Seligson & Co Fund Management Company, the information will also be available on that channel. The custodian of the fund is OP Custody Ltd.

## What are the risks and what could I get in return?

### Risk Indicator

Lower Risk

Higher Risk

The risk indicator assumes that you keep the product for 3 months. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 1 out of 7, which is the lowest risk class.

The risk indicator takes into account the market risk related to the performance of investment objects. The risk indicator category may vary over time. All investing involves risks; even in the lowest risk categories. General investment-related risks are described in more detail in the prospectus.

Credit risk is taken into account in the risk indicator. The following factors are not taken into account: the debt-servicing capacity of issuers of instruments and the solvency ratio of deposit banks.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

## Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: 3 months

Example Investment: EUR 10,000.

Scenarios		If you exit after the recommended holding period
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.	
Stress	What can an investor get back after expenses	9,980 EUR
	Average return each year	-0.19 %
Unfavourable	What can an investor get back after expenses	9,980 EUR
	Average return each year	-0.19 %
Moderate	What can an investor get back after expenses	10,000 EUR
	Average return each year	-0.04 %
Favourable	What can an investor get back after expenses	10,100 EUR
	Average return each year	1.04 %

The stress scenario shows what you might get back in extreme market circumstances. The unfavourable scenario occurred for an investment between June 2022 and September 2022. The moderate scenario occurred for an investment between April 2019 and July 2019. The favourable scenario occurred for an investment between September 2023 and December 2023.

## What happens if Seligson & Co Fund Management Company Plc is unable to pay out?

The assets of the funds are the property of their investors. The funds are stored with an external custodian (OP Custody Ltd). The custodian's duties include the custody of the fund's assets and the supervision of the operations of the funds. The assets of the investment fund are held separately from those of other investment funds, the fund management company, and the custodian. The fund management company's finances are entirely separate from the assets of the investment fund and the assets of the fund cannot be used to cover the liabilities of the fund management company or the custodian. The investment funds managed by Seligson & Co Fund Management Company Plc are not protected by the Investors' Compensation Fund and are not covered by deposit guarantee.

## What are the costs?

**The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.**

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year, you would get back the amount that you invested (0 % annual return).
- EUR 10,000 is invested.

	If you exit after the recommended holding period
Total costs	5 EUR
Cost impact (*)	0.0 %

(\*) This illustrates the effect of costs over a holding period of less than one year. This percentage cannot be directly compared to the cost impact figures provided for other PRIIPs.

## Composition of costs

One-off costs upon entry or exit		If you exit after the recommended holding period
Entry costs	The fund does not have entry costs.	0 EUR
Exit costs	The fund does not have exit costs.	0 EUR
Ongoing costs [taken each year]		
Management fees and other administrative or operating costs	0.19% p.a. (2024). Includes e.g. the management fee, custody and custodian fees and bank charges.	19 EUR
Transaction costs	0.00 % of the value of the investment annually. Includes the expenses incurred on the purchases and sales of the fund's investments. This figure includes actual and implied trading costs. This is an estimate based on previously incurred costs. Costs may vary from one year to the next.	0 EUR
Incidental costs taken under specific conditions		
Performance fees	The fund does not have a performance fee.	0 EUR

## How long should I hold it and can I take money out early?

### Recommended holding period: 3 months

The fund may not be suitable for investors who intend to give up their units in the fund within 0.25 years (3 months). The recommended minimum holding period is based on an estimate made by the developer. The assessment takes into account, among other things, the fund's historical value fluctuations in relation to the current situation and other possible fund-specific features. Investors can redeem their investments on any Finnish banking day. If investors give up fund units before the end of the recommended holding period, the risk of loss increases.

## How can I complain?

Investors can complain about this product, Seligson & Co Fund Management Company Plc or the activities of the person selling or advising on the product to the fund management company (info@seligson.fi, phone: +358 9 6817 8200, www.seligson.fi/sco/suomi/tietoa-palveluista/, Erottajankatu 1–3 00130 Helsinki). The appeal, and any claims, must be submitted to the fund management company in writing and the fund management company shall announce its decision without undue delay.

An investor dissatisfied with the decision can appeal to the Finnish Financial Ombudsman Bureau (Porkkalankatu 1, 00180 Helsinki, telephone: +358 9 685 0120, www.fine.fi), which provides recommended solutions in securities matters and the Consumer Disputes Board (Hämeentie 3B, P.O. Box 306, 00531 Helsinki, kril@oikeus.fi, www.kuluttajariita.fi). The customer can also submit disputes for review to the district court of his or her place of residence in Finland.

## Other relevant information

Investors are advised to read the prospectus, fund rules and key information document before making an investment decision. The fund materials are available at seligson.fi and on request from the customer service +358 9 6817 8200. The latest version of the key information document is available on the above-mentioned websites. If the investor uses a service channel other than Seligson & Co Fund Management Company, the information will also be available on that channel. A chart of the past performance of the fund over the last ten years is available at www.seligson.fi/PRIIPS. For unit class V, a performance chart is available over the last four years. Monthly performance scenarios of all the fund's unit classes are available at www.seligson.fi/PRIIPS.

The official key information document of the fund is in Finnish. Conflicts will be resolved in accordance with Finnish law. Remuneration of staff is carried out in accordance with applicable law and the regulations and instructions of the authorities. For more information, please ask the fund management company.
