

Seligson & Co Family Business Fund

Share class and date of inception: accumulation (A) 25 September 2000, income (B) 25 September 2000

Benchmark: Morgan Stanley Capital International All Country World Net Dividend Return. The index is a total return index.

The past performance is presented through the accumulation unit (A) of the fund, where any distributable investment return of the fund has been reinvested.

This chart shows the fund's performance as the percentage loss or gain per year over the last 10 years against its benchmark. It can help you to assess how the fund has been managed in the past and compare it to its benchmark.

Green bars: annual return of the Fund, %

Grey bars: annual return of the benchmark, %

The Fund's investment policy was changed to focus on family business companies on 1 January 2022.

Past performance is not a reliable indicator of future performance. Markets could develop very differently in the future. It can help you to assess how the fund has been managed in the past.

The presented return is net of ongoing costs, excluding implicit transaction costs. Entry and exit costs (trading fee payable to the fund, subscription and redemption fees) are excluded from the calculations.
