

Seligson & Co Money Market Fund

Share class and date of inception: accumulation (A) 1 April 1998, income (B) 1 April 1998

The past performance is presented through the accumulation unit (A) of the fund, where any distributable investment return of the fund has been reinvested.

This chart shows the fund's performance as the percentage loss or gain per year over the last 10 years.

Green bars: annual return of the Fund, %

Past performance is not a reliable indicator of future performance. Markets could develop very differently in the future. It can help you to assess how the fund has been managed in the past.

The presented return is net of ongoing costs, excluding implicit transaction costs. Entry and exit costs (trading fee payable to the fund, subscription and redemption fees) are excluded from the calculations.
